

TURBINE AERATOR THK-R25

Key Features:

- High efficiency dissolved oxygen, dissolved oxygen to a depth of more than 1.5M and dissolved oxygen over radius 15M above.
- Micro bubble, can provide dissolved oxygen for a long time.
- Effective provide bottom dissolved oxygen, improving water quality and the environment.
- Low power consumption, high dissolved oxygen, low failure, high profit.
- Combine this turbine aerator and paddlewheel aerator in the culture pond to reach best aeration performance.
- Country of Origin: Taiwan

Model	Power	Phase	Voltage	Hz	Impeller	Dimension (mm)	20/40ft container
THK-R25	2hp	3Ø	415v	50Hz	1pc	1036 x 1650 x 1500mm	70/140 sets
